What is SAMtool?

SAMtool – Sponsored Award Management Tool:

- Rolled out in Fall 2015
- Purpose
 - To provide a tool for financial and budget management of sponsored awards
- Access
 - For Principal Investigators access is automatically granted upon award set up in the PeopleSoft System
 - All other access is attained via a FAST request (PF92Camp) submitted by your departmental Information Coordinator. All access is based on your role and security access.
- On-going Enhancements

Features of the SAMtool

The specific features of the SAMtool are:

- "dashboard" type reporting for chairs, deans and VPR, providing a summary of department, school/college, and University-level sponsored activities by primary investigators (PIs), total sponsored budget, etc.
- at-a-glance summary views for PIs and administrators on awards for which they are responsible
- burn-rate indicators for potential over- or underspending on awards
- ability to drill down from summary data to multiple sublevels of summary data, and to the transaction level while also providing links to source documentation
- ability to categorize financial data to mirror OSP budget template categories, providing intuitive analysis throughout the award lifecycle
- enabling of PIs and administrators to create "what-if" scenarios for project planning, including commitments throughout the grant cycle
- provision of a clean, consistent and concise reporting tool for all sponsored awards
- reduction/elimination of the need for shadow systems

How Do I Access SAMtool?

One click access from MySlice
